SUMMARY

A Software Engineer and open-source maintainer, primarily building things for the web, who believes in changing the world by building applications that are efficient and reliable using well-defined scientific principles and procedures. I am constantly challenging and improving myself to solve business problems with IT. I'm currently available and open to new ideas and contributing to society.

EXPERIENCE

Public, Port Harcourt — *Freelance Web Developer*

MONTH 2019 - MONTH 2021

Designed and developed web applications that helped improve local businesses.

EDUCATION

Rivers State University, Nigeria — *BSc*

SEPTEMBER 2018

Victorious Model College, Nigeria — *SSCE*

SEPTEMBER 2015 - JULY 2017

PROJECTS

LearnCard — *Facilitate learning with an online flashCard*

This is a simple online platform that facilitates personalized learning through use of simple web technologies.
